WHAT DO OTHERS SAY?

Her Colleagues

I have had the pleasure of working with Marnie as a member of the Board of the Maple Leaf Angels organization. Her contributions reflect her wealth of experience in business, on boards and in the classroom. She constantly impresses with sound judgment built on a solid foundation of ethical beliefs and thought. Marnie invariably views issues from the perspective of her constituent base which helps us make better decisions and run a better business. One could not ask for a harder working, more thoughtful colleague and partner.

- Ken Paige, Former Chair, Maple Leaf Angels.

Her Suppliers

Having worked with Marnie Walker on her 401 Bay Centre project, I found her to be hard working with great integrity and a lovely sense of humour. She is a pleasure to work with.

- William Brisland, Principal & Owner, William Brisland Design Inc.

Her Speaking Audiences

Our National Angel Summit benefited enormously from the address made by Marnie Walker. A serial entrepreneur, Marnie's story of the creation, operation, and eventual successful exit of her company both entertained and inspired the entire audience of over 250 Angel investors and Angel community stakeholders. Speaking on the topic, Engineering Killer Exits, Marnie's energy was refreshing, holding the audience's interest at the end of a long day.

- Bryan Watson, Executive Director, National Angel Capital Organization

Her Customers

In the wake of a recent devastating flood to our premises, with the efficient help of Marnie Walker and her staff at 401 Bay Centre, we were able to move one quarter of our staff smoothly to their comfortable space with a downtime one day.

- Susan Owen, Office Manager, Interac Association.

Her Students

You offered us a real life look into the world of Entrepreneurship and how to successfully work in a team. I feel that I have gained so much from attending your lectures and hearing you speak from your own experiences. You have inspired me to have passion and determination in what I do, and I really thank you for that.

- Andrea Grieco, BBA Student 2009, Schulich School of Business
